

## **Dear Bully**

By Liza Chdid

Dear bully did you think how you made me feel when you called me worthless?

Did you think the effect it should have on my life, when you posted that comment on Instagram telling me to kill myself?

Did you think it Was possible that I had full on anxiety ask you after you turned all my friends on me?

but through this I learnt to ignore you that you are doing this to make your own problems less

Dear bully you don't scare me anymore.
